Clear Corretora launches NinjaTrader to Brazil's active traders!

Denver, CO, June 10, 2014 – NinjaTrader, LLC and Clear Corretora have partnered to bring the award winning NinjaTrader platform to traders of the BM&F Bovespa Exchange. Clear Corretora was formed by an elite team of industry professionals committed to becoming Brazil's leading brokerage for active and sophisticated retail traders. NinjaTrader's worldwide popularity, low cost and numerous client requests made it an easy selection for Clear.

"We are extremely excited to become NinjaTrader's exclusive Brazilian brokerage partner", said Clear's Commercial Director Roberto Lee. "To meet our charter of becoming the #1 active trader brokerage in our market," continued Lee, "we required a world-class platform which, when combined with the NinjaTrader Ecosystem of over 400 partners, delivers unparalleled functionality and flexibility".

The launch of NinjaTrader to the Brazilian market fills a large void that exists between retail and institutional traders of Latin America's largest exchange and the 5th most populous country in the world. To close the gap, Brazil's retail traders have been actively campaigning for access to NinjaTrader's award winning analytics and trade execution which contributed to the establishment of this partnership.

"NinjaTrader is pleased that Brazilian traders recognized our advanced capabilities and vast partner Ecosystem which helped bring us together with Clear Corretora", said Raymond Deux CEO of NinjaTrader. "Clear's proven management team combined with their intense focus on the active retail trader is an excellent fit for NinjaTrader and we expect quick and significant growth in this emerging new market".

The new NinjaTrader offering will support a variety of BM&F Bovespa products and is immediately and exclusively available to clients of Clear Corretora. Please contact Clear Corretora at atendimento@clear.com.br or +55 11 3957-9191 to open an account or inquire about NinjaTrader.

About NinjaTrader, LLC

Founded in 2003, NinjaTrader, LLC (www.ninjatrader.com) quickly emerged as a leading developer of high-performance trading software. NinjaTrader sets the benchmark for trading software and continues to invest in new product development. Based in Denver, CO, NinjaTrader, LLC serves the global trading community with locations in Chicago, IL, Rotterdam, the Netherlands and Bamberg, Germany.

About Clear Corretora

Clear (www.clear.com.br) is a 100% individual traders focused brokerage house, specialized on more experienced traders that now seek a more sophisticated solution to their trading needs. Combining market knowledge and high-end systems infrastructure, we provide advanced solutions with a reasonable pricing policy. Clear's staff combines strong academic background with large executive experience, providing efficiency and knowledge from the trading desk to the post-trading complexities.

Clear Corretora is a brokerage house founded in 2012 by 2 experienced futures traders (José Rossetto and Mauro Benati) and operations director Paolo Mason, commercial director Roberto Lee and IT director João Procópio. The 3 latter identified that individual inexperienced traders already had full trading support from traditional brokerage houses and came up with the idea of putting together one that fully understands the active traders' needs and that provides them not only with a skilled support team but also a strong infrastructure background and an aggressive pricing policy as well. Within 2 years, Clear became the leader in futures traded among individual traders and is regarded as arguably the most high-tech brokerage house in Brazil.
